Technik für Kabelverlegung und Freileitungsbau

Christian Bilegan

---

we confirm the participation in:

## The theory and practice of cable laying

Planning, preparation and realization of cable laying projects

Theoretical and practical exercises:

- Underground cable laying
- Cable mounting in industrial plants
- Vertical cable works
- Locating systems in civil engineering
- Safety by using winches and wire ropes
  
- Fibre optic cable installation by using the "Cablejet" system
- Overcome of long cable distances and difficult duct traces
- Micro Cabling - blowing-in of subducts in conduits
- Blowing-in micro cables
- Conduits and connections
